

Newport Forest

July 5 2001

1:45 - 5:30 pm

Weather: sunny, cool 24C, breeze from NW

Purpose: maintenance - trails

Participants: Kee, Nic

We extended the Fleming Creek trail by 80 metres, using three bags of chips in the process. We then went to the Blind Creek trail and groomed (somewhat crudely) about 200 metres, then walked over the Hogsback, down into the RSF, and out to the Landing, where we worked back into the RS trail about 50 metres of crude grooming.

Note: for map-making purposes, the power lines cross Fleming Creek right where the bridge meets the west bank, as shown:
