

Newport Forest

Sunday June 25 2006

2:15 - 5:45 pm

Weather: prec. 2mm; RH 48%; clear; calm; Lm 31C; FCF 26C

Purpose: trail maintenance & watering

Participants: Kee, George Elijah, Lee Carlson, AbdulLatf Abid

We scraped, hacked and sawed our way from (nearly) Eva's Hairpin to the log bridge. The trail is clear, smooth, velvety-looking. While George and Lee went in to work in the BCF, I took Abid up to the water tank, where we filled 12 jugs and the cooler. We watered there until about 5:30, when we decided to leave. George and Lee had done about 200m of trail through the BCF (the worst part).
