

Newport Forest

Sunday October 29

2:10 - 5:00 pm

**Weather:** prec. 28mm; RH 60%; NW 0-20kmh; sn/cld; LM 10C; FCF 9C

**Purpose:** tree planting

**Participants:** Kee & Brian

It had been raining for several days before our arrival and the creek was once again up over the pipe bridge, with pieces of decking floating nearby on their tethers. (sigh!) Brian moved the squirrel box up beside the raccoon box.

We planted an experimental Black Ash and a Red Maple in the GF (just above the flood waters) beside the FCT about 80m upstream from the pipe bridge. After a short break, we then planted 5 Black Ash in or near the Blind Creek bed between the BCF entrance and the bend in Edgar's Trail by the old willow. We planted the remaining Red Maple right beside the trail not far from the entrance.

No girls. No Charlie.

## Malaise Samples

### Moths

Dusky Groundling	<i>Platysenta vecors</i>	RL nz/KD J131/05
Chestnut Schizura	[ <i>Schizura badia</i> ]	RL nz/KD J131/05
Dogbane Tiger Moth	<i>Cycnia tenera</i>	RL nz/KD J131/05
Olive Arches	<i>Lacinipolia olivacea</i>	RL nz/KD J131/05
Dingy Cutworm Moth	<i>Feltia jaculifera</i>	RL nz/KD Au21/05
Verbena Moth	<i>Crambodes taliformis</i>	RL nz/KD Au21/05
Bridled Arches	[ <i>Lacinipolia lorea</i> ]	RL nz/KD Au21/05
Baltimore Homolocha	<i>Homolocha baltimoralis</i>	RL nz/KD Au21/05
Black Zigzag	[ <i>Panthea acronyctoides</i> ]	RL nz/KD Au21/05
Black-banded Brocade	<i>Oligia [modica]</i>	RL nz/KD Au21/05
Bent-line Tan	<i>Oxycila malaca</i>	RL nz/KD Au21/05

### Beetles

“Small Firefly” *Lucidota* sp. LM nz/KDJ118/05
