General Course Information

Course Information:

Computer Science 1032a
Information Systems and Design
Course Outline – Fall Term 2022

Calendar Description:

Techniques used for determining technological needs of businesses; building and managing systems to meet those needs; development roles of individuals and organizations; planning and management of concepts, personnel and processes; related software tools (spreadsheets, databases).

This course satisfies the Information Technology requirement for a Certified Accountant, a Certified General Accountant or a Certified Management Accountant accreditation. The content of the course has been approved by The Institute of Chartered Accountants of Ontario, The Certified General Accountants of Ontario and The Society of Management Accountants of Ontario. The materials used in this course for the introduction to Microsoft applications software have been approved by Microsoft for use in the preparation for the Microsoft Office Specialist Certification exams.

Prerequisites
None.

Antirequisites
Management and Organizational Studies 1033A/B.

Instructors:

M. Magguilli  (course coordinator)  [ Section 001 ]
E-Mail: lmagguil@uwo.ca
Office: MC386
Office Hours: Tuesdays: 10:30 am – 11:30 am
-or- by appointment (arranged at least one day prior)

Daniel Servos  [ Section 002 ]
E-Mail: dservos5@uwo.ca
Office: MC387
Office Hours: By Appointment on Tuesdays and Wednesdays from 1:00pm – 2:30PM
Appointment Link: http://danielservos.ca/apt

1 E-mails regarding CS1032, questions, concerns, inquiries about assignments, etc. should be sent to cs1032@uwo.ca Both instructors will have access to this e-mail and it will be actively monitored. Sending questions to the instructors individually may result in your question going unanswered or lead to a significant delay in the response.
Required Course Material:

**Experiencing MIS, Fifth (5\textsuperscript{th}) Canadian Edition**, with MyLab MIS
D. Kroneke, R. J. Boyle, A. Gemino, P. Tingling (2019)

eText and MyLab MIS key available online via the UWO bookstore:
https://bookstore.uwo.ca/product/cebcodeid25576

or directly from Pearson:
http://www.pearsonmylab.com/

When registering with MyLab MIS, use the following course code and ensure you sign up with your Western e-mail ending in @uwo.ca.

**Course Code:** magguilli27707

While the textbook (or eText) is required for this course, the online MyLab MIS component is optional but highly recommend for studying purposes. If you have a physical copy of the textbook, you may purchase the optional MyLab MIS component separately from the eTextbook directly from Pearson.

Technology Requirements:

To successfully complete this course, all students **must** have access to a personal computer that meets or exceeds the following requirements:

- **Operating System:** Windows 11, Windows 10, Windows 8.1, Windows 8, Windows 7 SP 1
- **Minimum Memory (RAM):** 2GB
- **Minimum Free Disk Space (Hard Disk Size):** 6GB
- **Minimum Monitor Resolution:** 1280 x 800
- **Minimum Processor (CPU):** Dual-core 2 GHZ or faster
- **Browser:** Chrome 63 or newer, Firefox 70 or newer, or IE 11
- **Browser Plug-Ins:** Javascript Enabled & Third Party Cookies Enabled
- **Internet Connection:** Reliable high-speed internet connection (0.5+ Mbps)
- **Computer Peripherals:** Webcam (can be built into laptop), microphone (can be built into webcam or laptop), keyboard, and mouse

** IMPORTANT ** MS Access does NOT run on an Apple computer !
Other arrangements must be made in advance.
Software Requirements:

The following software will be used in this course. Microsoft Office is provided for free to most students enrolled at Western, all other software listed is available for free. It is the student's responsibility to ensure the following software is compatible with, installed and working on their home computer.

**Microsoft Office 365:**
- Excel
- Word
- Access *(Windows only!!)*

**Internet Browser:**
- Firefox 70 or newer
- OR Chrome 63 or newer
- OR IE 11 *(not recommended for MyLab MIS)*

**Plain Text Editor:**
- NotePad++ *(Windows only)*
- OR Brackets

**E-R Diagram Tool:**
- Dia Diagram Editor

**MyVLab:**
- Windows Emulator Environment *(mandatory for Apple Mac O/S users!!)*

**Proctortrack:**
- Proctortrack - Only for the final exam if the course must shift to online.

**Remote Backup Service:**
- OneDrive
- OR Dropbox, other version control, etc.

**IMPORTANT** MS Access does **NOT** run on an Apple computer!

Students may complete their assignments on their own computer if it is equipped with the proper software or use the computers in the first-year Computer Science labs in Middlesex College or use the university’s General Student Computing Labs.

The General Student Computing Labs at the university are currently located in:
- HSB13, HSB14 & HSB16 - Health Sciences Building, rooms 13, 14, and 16
- NCB 105 - North Campus Building, room 105
- SSC1000, SSC1012 & SSC1032 - Social Science Centre, rooms 1000, 1012 and 1032

By taking this course, you are declaring that you meet all technology and software requirements, including access to a reliable internet connection, a Windows PC, a webcam, and microphone.
Course Schedule:

**CS1032a  Section 001**

**Lecture Times:**
- Tuesday  1:30 pm – 2:30 pm
- Thursday  1:30 pm – 3:30 pm

**Location:** Social Science Centre (SSC) - Room 2050

**CS1032a  Section 002**

**Lecture Times:**
- Tuesday  07:00 pm – 10:00 pm

**Location:** North Campus Building (NCB) - Room 113

Scheduled Lectures:

This course uses a flipped-classroom model. This means that lecture and tutorial videos will be posted weekly on the OWL course site. Students are expected to view these videos and complete any required tasks (listed on the OWL course site) before attending lecture sessions each week.

Scheduled in person lectures will primarily consist of in-class group activities lead by your section’s assigned instructor. Students are expected to come prepared to work on activities and bring any necessary supplies including blank paper and writing utensils to each session. Bringing a laptop or electronic device capable of using the required software is highly recommend but not required. Please bring such a device to each lecture if possible.

The content covered in person consists of only a portion of the course content. Readings, lecture videos, and practice exercises will be assigned weekly that make up the remainder of the content. Students are expected to both actively engage in the in-person lectures and complete the assigned readings and videos each week. Quizzes and the final exam will cover content from all sources, so it is critical that students both attend lectures and complete required readings/viewings to be successful in this course.

**Lecture videos are not a substitute for attending in person lectures or reading the textbook!**
**Tentative Topics and Textbook Reading Schedule:**

The following is a schedule of tentative topics, readings, and lecture/tutorial videos. The schedule is tentative and subject to change. Readings should be completed within a week of the assigned date. Lecture and tutorial videos will be posted each week on OWL to supplement the readings and in-class activities. Please review the videos each week before attending your lecture session.

**Classroom Conduct:**

Students are expected to come to class prepared and ready to do activities. This means watching the assigned lecture videos and tutorials before class, completing any assigned tasks, and bringing any necessary supplies (e.g. blank paper and writing utensils). Students must arrive on time and not disturb others during lecture portions of the class.

The use of laptops, tablet computers, or smart phones is highly encouraged for following along with tutorials and to participate in activities involving the software covered by this course. If possible, please bring your laptop with the required software already installed to class each week. The use of these electronic devices during class should be for class related activities only and not be inappropriate or disturb others.

Any behaviour or activity that may impede the ability of you or other students to learn will not be tolerated. If the behaviour persists, the individual(s) involved will be invited to leave the classroom.

Out of respect for the privacy of your fellow classmates and the proprietary nature of some of the materials used in the lectures, **no audio or video recordings** will be allowed during any of the class sessions unless agreed upon beforehand in-writing with the instructor of your section.
Teaching Assistant Consulting:

Consulting will take place in one of the computer labs located in Middlesex College and the schedule will be posted on the course website once it has been established. Consulting hours will begin approximately two weeks after the start of the term. Questions regarding assignments or lecture materials should be directed to the course Teaching Assistants (TAs) during their consulting hours. Questions requiring further information can be dealt with by contacting the course instructor.

Email Contact:

Occasionally email messages may be sent to the entire class or to students individually. Email will be sent to your UWO email address as assigned to you by Information Technology Services (ITS). It is your responsibility to read this email on a frequent and regular basis.

Email contact with the course instructors is encouraged, by sending brief and appropriate message regarding lecture material or assignments to cs1032@uwo.ca. However, please first check the Forums section in OWL to see if the information has already been posted. If you contact the instructor via email or post a question on OWL, you can expect a response in a timely fashion, but not necessarily an instantaneous response. Please use proper, appropriate and respectful English when sending an email message or posting on the course web site.

NOTE: Email messages must be sent from your university account (@uwo.ca) and should be sent to cs1032@uwo.ca and not your instructor’s personal e-mail. Your e-mail must contain your section number in the subject or body of the e-mail. Messages sent to your instructor’s personal e-mail may not be responded to or may have a significant delay in the response.

Do not use ‘respond to’ for any email originating from OWL (announcements, etc.) – ensure the cs1032@uwo.ca email is in the destination and NOT postmaster@owl.uwo.ca

[ this is very important – please make sure you understand and follow the standards above. ]

NOTE: Please also include a title or topic description of the contents of the email in the subject line.

Student Evaluation (tentative dates):

If for any reason the assignment schedule given below cannot be adhered to, the assignment marks will be pro-rated. (The 6 assignments are worth 40% of the overall mark for the course. If an assignment has to be cancelled for any reason by the professor, the remaining assignment weights will be scaled to add up to 40%.)
<table>

</tr>
<tr>
<td>Final</td>
<td>40%</td>
<td>TBA</td>
</tr>
</tbody>
</table>

**Important:**

To be eligible to obtain a passing mark in the course, the student’s final exam grade must be **49%** or higher, you must submit at least **3** of the 6 assignments (with any non-zero grade), and submit at least **2** of the 4 quizzes (with any grade). If you do not meet any of these requirements, the maximum final grade you can obtain in this course will be 45%. There will be **no exceptions** or waiving of this requirement for **any reason or circumstance**.

The due dates of the assignments are shown in the table above. Please note that all these dates are tentative. The due dates will be confirmed when the assignments are posted on OWL. The dates will coincide with the class progression on subsequent topics.

It is the student’s responsibility to ensure that the correct version is submitted to OWL. No excuses will be accepted if an incorrect version is submitted instead. Students can resubmit their assignments up to 3 days past the due date. In this case, only the last version will be marked. If the assignment is resubmitted after the due date, it will be considered late, and any penalty will be based on the date of the last submission.

Assignments will not be accepted if submitted by email instead of OWL and will be deleted immediately and deemed un-submitted.

**Assignment Marking:**

- Every effort will be made to have assignments marked by a TA and handed back within 2 weeks of the assignment due date where possible.
- Individual marks and a detailed marking scheme will be posted on the OWL site once marks are returned.
- Questions regarding the marking of assignments should first be directed to the teaching assistant that graded your assignment and then the course instructor assigned to your section if your discussion with the teaching assistant was not satisfactory.
• Requests for mark adjustments will only be considered if they are made within 1 week of receiving the assignment mark and have been first discussed with the teaching assistant who marked the assignment. Assignment marks will be final after that date.
• Requests for mark adjustments will only be considered when they are for adjustments of 5 marks or greater.

Late Policy for Assignments:

• It is expected that students budget enough time to properly submit their assignments via OWL and allow for any unforeseen technological issues. Students are expected to regularly backup their assignments and submit well before any deadline.
• Each student will be given five “late coupons” in total for the semester that may be used to submit an assignment one day late per coupon (up to a maximum of 3 days late per assignment).
• Late coupons will be applied automatically when an assignment is submitted late and tracked in the OWL gradebook.
• If a student has no late coupons remaining or submits an assignment more than 3 days late, a zero grade will be given for the assignment (no partial late marks will be given).
• Late coupons must be used before special circumstances are considered.
• After all late coupons are used, no extensions will be given for assignments except for in the event of serious medical or compassionate grounds. A student must follow the procedure for Academic Accommodation for Medical Illness as given in this document.

Online Quizzes:

Up to four quizzes will be given online via the OWL platform. The tentative quiz schedule is as follows (subject to change):

<table>
<thead>
<tr>
<th>Quiz</th>
<th>Weight</th>
<th>Content Covered</th>
<th>Date Posted (by 8AM)</th>
<th>Due Date (by 6PM)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>5%</td>
<td>CH1, CH2, CH3 and Excel</td>
<td>Monday Oct. 3rd</td>
<td>Friday Oct. 7th</td>
</tr>
<tr>
<td>2</td>
<td>5%</td>
<td>CH4, CH5, KE6, KE9, CH6, and ERDs</td>
<td>Monday Oct. 17th</td>
<td>Friday Oct. 21st</td>
</tr>
<tr>
<td>3</td>
<td>5%</td>
<td>CH7, CH8, and Access</td>
<td>Monday Nov. 7th</td>
<td>Friday Nov. 11th</td>
</tr>
<tr>
<td>4</td>
<td>5%</td>
<td>CH9, CH10, XML and XSD</td>
<td>Monday Nov. 21st</td>
<td>Friday Nov. 25th</td>
</tr>
</tbody>
</table>

You may start a quiz at any time in the range given in the above table. Quizzes must be completed by the given due date. Failing to complete the quiz during the given times will result in a 0 grade being entered for the quiz. No extensions will be given for quizzes except for serious medical or
compassionate grounds that prevent the student from completing the quiz on any date in the range given in the above table.

**Quizzes are open book but must be done individually** and without the assistance of others. Sharing quiz questions/solutions, completing a quiz for or with another person or otherwise cheating on a quiz will result in a 0% quiz grade for ALL quizzes.

**Quizzes will have a set time limit and must be completed in this time limit once started.** The time limit may be different for each quiz based on its content and this time limit will be stated on OWL once the quiz is posted.

If less than four quizzes are given or a quiz must be cancelled for any reason by the professor, the weight of the cancelled quiz will be placed on the remaining quizzes.

**Final Exam:**
The final exam will be conducted in-person during the final exam period and **covers all course material including assigned readings, tutorials, lectures, and material covered in assignments.** The date, time and location of the final exam will be announced by the Registrar’s Office. The final exam will be held during the university final examination period. The format on the exam will be mixed and **may** include multiple choice, short answer, long answer, fill in the blank, and matching questions.

**Final Exam Policies:**
- The final exam will be closed book. However, you may have one letter sized (8.5 x 11 inches) page of handwritten notes (one sided).
- No electronic devices are allowed during exams (no iPods, laptops, smart watches, etc.). **Cell Phones** are **NOT** permitted to be visible or accessible during any part of the exam.
- The use of a calculator is **not** allowed.
- Multiple-choice questions may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.
- Students requesting a deferred final exam prior to the final exam must supply their Dean’s Office with written documentation at least 2 weeks prior to the Final Exam.
- In the event of serious medical or compassionate grounds, a student must follow the procedure for Academic Accommodation for Medical Illness as given above.
- A “Recommendation of Special Examination” form must be obtained from the Dean’s office, to be eligible to write the deferred final exam.

**Course Web Page:**
The course website is located within OWL. To access the website, navigate to http://owl.uwo.ca and login with your Western University personal computer account (user id and password). Lecture & tutorial videos, assigned readings, notes, assignments and class information will be posted on this site. **You are responsible for checking the course site regularly.**
New material will be posted each week including video lectures, tutorials and slides. These can be found in the Course Content tab in the OWL course site. Students are expected to complete all weekly tasks including assigned readings and exercises in the week they are assigned and well in advance of any other stated deadlines.

**Key Sessional Dates:**

- **Classes begin:** September 8, 2022
- **Canadian Thanksgiving weekend:** October 8 – 10, 2022
- **Reading Week:** October 31 – November 6, 2022
- **Classes end:** December 8, 2022
- **Exam period:** December 10 – 22, 2022

**Contingency Plan for an In-Person Class Pivoting to 100% Online Learning**

In the event of a COVID-19 resurgence (or other extraordinary event) during the course that necessitates the course delivery moving away from face-to-face interaction, all remaining course content will be delivered entirely online, asynchronously (e.g., posted on OWL for students to view at their convenience). The grading scheme will not change. Any remaining assessments will also be conducted online as determined by the course instructor.

In the event of a move to 100% online learning, the final exam will be conducted online using OWL and Proctortrack. By taking this course, you are consenting to the use of this software and acknowledge that you will be required to provide personal information (including some biometric data) and the session will be recorded. More information about this remote proctoring service is available in the Online Proctoring Guidelines at the following link: https://www.uwo.ca/univsec/pdf/onlineproctorguidelines.pdf

Completion of this course will require you to have a reliable internet connection and a device that meets the technical requirements for this service, including a webcam. Information about the technical requirements are available at the following link: https://www.proctortrack.com/tech-requirements/

**Student Absences**

**Academic Consideration for Student Absences**

Students who experience an extenuating circumstance (illness, injury or other extenuating circumstance) sufficiently significant to temporarily render them unable to meet academic requirements may submit a request for academic consideration through the following routes:

(ii) For medical absences, submitting a Student Medical Certificate (SMC) signed by a licensed medical or mental health practitioner to the Academic Counselling office of their Faculty of Registration.
(ii) Submitting appropriate documentation for non-medical absences to the Academic Counselling office in their Faculty of Registration.

Note that in all cases, students are required to contact their instructors within 24 hours of the end of the period covered, unless otherwise instructed in the course outline.

Students should also note that individual instructors are not permitted to receive documentation directly from a student, whether in support of an application for consideration on medical grounds, or for other reasons. **All documentation required for absences must be submitted to the Academic Counselling office of a student’s Home Faculty.**

For the policy on Academic Consideration for Student Absences – Undergraduate Students in First Entry Programs, see:

https://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf

The Student Medical Certificate is available at

https://www.uwo.ca/univsec/pdf/academic_policies/appeals/medicalform.pdf

**Religious Accommodation**

When a course requirement conflicts with a religious holiday that requires an absence from the University or prohibits certain activities, students should request accommodation for their absence in writing at least two weeks prior to the holiday to the course instructor and/or the Academic Counselling office of their Faculty of Registration. Please consult the University's list of recognized religious holidays (updated annually) at

**Absences from Final Examinations**

If you miss the Final Exam, please contact the Academic Counselling office of your Faculty of Registration as soon as you are able to do so. They will assess your eligibility to write the Special Examination (the name given by the University to a makeup Final Exam).

You may also be eligible to write the Special Exam if you are in a “Multiple Exam Situation” (e.g., more than 2 exams in 23-hour period, more than 3 exams in a 47-hour period).

If a student fails to write a scheduled Special Examination, the date of the next Special Examination (if granted) normally will be the scheduled date for the final exam the next time this course is offered. The maximum course load for that term will be reduced by the credit of the course(s) for which the final examination has been deferred. See the Academic Calendar for details (under Special Examinations).

**Note:** missed work can only be excused through one of the mechanisms above. Being asked not to attend an in-person course requirement due to potential COVID-19 symptoms is not sufficient on its own.
Accommodation and Accessibility

Accommodation Policies
Students with disabilities work with Accessible Education (formerly SSD), which provides recommendations for accommodation based on medical documentation or psychological and cognitive testing. The policy on Academic Accommodation for Students with Disabilities can be found at:

https://www.uwo.ca/univsec/pdf/academic_policies/appeals/Academic_Accommodation_disabilities.pdf,

Academic Policies

The website for Registrarial Services is http://www.registrar.uwo.ca.

In accordance with policy,

https://www.uwo.ca/univsec/pdf/policies_procedures/section1/mapp113.pdf,

the centrally administered e-mail account provided to students will be considered the individual’s official university e-mail address. It is the responsibility of the account holder to ensure that e-mail received from the University at his/her official university address is attended to in a timely manner.

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Web site:

Computer-marked multiple-choice tests and exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

Tests and examinations in this course may be conducted using a remote proctoring service. By taking this course, you are consenting to the use of this software and acknowledge that you will be required to provide personal information (including some biometric data) and the session will be recorded. Completion of this course will require you to have a reliable internet connection and a device that meets the technical requirements for this service. More information about this remote proctoring service, including technical requirements, is available on Western’s Remote Proctoring website at:

https://remoteproctoring.uwo.ca.

Assignments will be checked through the use of MOSS for similarities between submitted assignments, past and present in this course. Assignments may also be subject to metadata analysis using custom software developed for this course. Metadata analysis can show the history of the file, including sharing between individuals and flag potential academic dishonesty.
Ethical Conduct:

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Web site: http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf.

Plagiarism

All required assignments, quizzes and exams may be subject to submission for textual and metadata similarity review to plagiarism detection software. All assignments, quizzes and exams submitted for such checking may be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of such services are subject to the licensing agreement with The University of Western Ontario. These services and software may include but are not limited to Turnitin (http://www.turnitin.com), MOSS, SCANEX, and custom plagiarism detection software developed for the course.

Computer-marked multiple-choice quizzes and exams may be subject to remote proctoring software and submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating. For details on remote proctoring see the final exam section.

Students must write their assignments in their own words. Whenever students take an idea, or a passage from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. Plagiarism is a major academic offence (see Scholastic Offence Policy in the Western Academic Calendar).

All assignments are individual assignments. You may discuss approaches to problems among yourselves; however, the actual details of the work (assignment coding, answers to concept questions, etc.) must be an individual effort. All assignments will be subject to both content and metadata plagiarism analysis.

All quizzes and the final exam are to be written individually, the content and questions not shared and provided rules followed.

Tutors and Outside ‘Help’ on assignments

Students may receive the help of a tutor on assignments, so long as the tutor only identifies errors or demonstrates sample problems that are not part of the assignment. If the content of your assignment is significantly different than if you had not received help, then this is an indication you may have crossed the line into cheating. Again, if you are unsure about how much help is too much, ask your instructor.

The role of tutoring is to help students understand course material. Tutors should not write any part or all of an assignment for the students who hire them. Tutors should not ‘advise’ or ‘suggest’ what is to
be entered into an assignment or the solutions to any portion of the assignments. Any aid beyond what you would have received directly from the instructor will be considered an academic offense. Having employed the same tutor as another student is not a legitimate defense against an accusation of collusion, should two students hand in assignments judged similar beyond the possibility of coincidence.

**Academic dishonesty** in assignments includes (but is not limited to):

- Unacceptable collaboration

- What is unacceptable? There is a difference between discussing assignments and solutions with fellow students and working together on the solutions to the point where the work submitted is clearly not individual work. **If in doubt, ask your instructor.**

- **Copying** of another student’s assignment

- **Allowing** another student to copy your work ← *this is also an Academic Offense*

- Sharing your assignment with another student electronically or otherwise ← *this an Academic Offense for both students.*

- Using another student’s assignment or work as a “template” or “starting point” for your own work. ← *this is an Academic Offense for both students*

- Using sites dedicated to sharing assignment solutions or aiding cheating, including but not limited to Course Hero, OneClass, and Chegg.

- Using code from an external source (text, instructor, course website) where a student's own code is expected (**if in doubt, ask your instructor**)

**Academic dishonesty** in quizzes and exams includes (but is not limited to):

- Writing a quiz/exam with the aid of another person ← *this is an Academic Offense for both students.*

- Sharing quiz/exam questions/answers or using ones sent to/obtained by you.

- Having another person write a quiz/exam for you.

- Failing to follow the specific rules given in the quiz/exam.
- Sharing you screen or virtually taking a quiz/exam with others (e.g. being in an online chat of any kind while taking a quiz/exam).

The penalty for academic dishonesty in any course component is receiving 0% for that component **AND** the possibility of additional penalties as deemed appropriate by the course instructor, department or university including but not limited to an additional penalty equal to the course component, or a failing overall grade being entered for the course. Note that receiving 0% on an assignment may make you ineligible for a passing grade due to the 49% requirement given in the Student Evaluation section. Receiving 0% on the final exam, will make you ineligible for a passing grade in this course.

You are responsible for reading and respecting the Computer Science Department's policy on: Scholastic Offences:

**Support Services**

Please visit the Science & Basic Medical Sciences Academic Counselling webpage for information on adding/dropping courses, academic considerations for absences, appeals, exam conflicts, and many other academic related matters: [https://www.uwo.ca/sci/counselling/](https://www.uwo.ca/sci/counselling/).

Please contact the course instructor if you require lecture or printed material in an alternate format or if any other arrangements can make this course more accessible to you. You may also wish to contact Accessible Education at (519) 661-2147 if you have any questions regarding accommodations.

Western University is committed to a thriving campus as we deliver our courses in the mixed model of both virtual and face-to-face formats. We encourage you to check out the Digital Student Experience website to manage your academics and well-being: [https://www.uwo.ca/se/digital/](https://www.uwo.ca/se/digital/).

Learning-skills counsellors at the Student Development Centre ([http://www.sdc.uwo.ca](http://www.sdc.uwo.ca)) are ready to help you improve your learning skills. They offer presentations on strategies for improving time management, multiple-choice exam preparation/writing, textbook reading, and more. Individual support is offered throughout the Fall/Winter terms in the drop-in Learning Help Centre, and year-round through individual counselling.

Students who are in emotional/mental distress should refer to Mental Health@Western ([http://www.health.uwo.ca/mentalhealth](http://www.health.uwo.ca/mentalhealth)) for a complete list of options about how to obtain help.

Additional student-run support services are offered by the USC, [http://westernusc.ca/services](http://westernusc.ca/services).
