

Course Information

Computer Science 3305A - Operating Systems
Fall Term 2024

Course Topics

This course presents fundamental concepts related to the design and implementation of operating systems. Topics include intro to the computer operating system, basic operating system structure, process fundamentals, inter-process communications, signals, system calls, process scheduling, process and thread synchronization and concurrency, memory basics, memory management, file systems and storage servers, and if time permits a few "hot" topics.

Calendar Description

Survey of major operating systems; interprocess communication; multi-tasking; scheduling; memory management; performance and measurement issues; trade-offs in operating system design; concurrency and deadlock.

Antirequisite(s): Software Engineering 3313A/B.

Prerequisite(s): Either (Computer Science 2208A/B and Computer Science 2211A/B) or (the former Computer Science 2101A/B and Computer Science 2208A/B) or (Computer Science 2210A/B, Computer Science 2211A/B, ECE 3375A/B, and registration in the fourth year of a BESC program in Computer Engineering or Mechatronic Systems Engineering.)

Unless you have either the requisites for this course or written special permission from your Dean's Designate (Department/Program Counsellors and Science Academic Counselling) to enroll in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

Instructor

Will Beldman (Instructor and Course coordinator)

Office: [REDACTED]

Office Hours: Friday 10:30 - 11:30am

E-Mail: wbeldman@uwo.ca

Moinul Islam Sayed (TA)

Office: Thursday 11:30am-12:30pm

Office Hours: [REDACTED]

E-Mail: msayed6@uwo.ca

Chongju Mai (TA)

Office: [REDACTED]

Office Hours: Thursday 11am to 12pm

E-Mail: cmal3@uwo.ca

Sadia Yeasmin (TA)

Office: [REDACTED]

Office Hours: Thursdays 12pm to 1pm

E-Mail: syeasmin@uwo.ca

Yunzhuo Zhang (TA)

Office: [REDACTED]

Office Hours: Wednesdays 1pm to 2pm

E-Mail: yzha3327@uwo.ca

Mitali Ghoshal (TA)

Office: [REDACTED]

Office Hours: Wednesdays 2pm to 3pm

E-Mail: mghoshal@uwo.ca

Sudipto Baral (TA)

Office: [REDACTED]

Office Hours: Mondays 3pm to 4pm

E-Mail: sbaral3@uwo.ca

Teaching Assistant Consulting

Questions regarding assignments or lecture materials can be directed to a Teaching Assistant (TA) first. Questions requiring further information can be dealt with by contacting the course instructor.

Email contact

Occasionally email messages may be sent to the entire class or to students individually. Email will be sent to your UWO email address as assigned to you by Western Technology Services (WTS). It is your responsibility to read this email on a frequent and regular basis.

You should note that email at the university and through other providers have quotas or limits on the amount of space that is dedicated to each account. Unchecked email may accumulate beyond those limits and you may be unable to retrieve important messages from the university. Losing email is not an acceptable excuse for not knowing about the information that was sent.

Email contact with the course instructor is encouraged, and I endeavour to reply to messages within 24 hours between Monday and Friday and within 48 hours on Saturday, Sunday and holidays.

Students can ask questions via email, however if there are any large, somewhat complicated issues, it is recommended to discuss them during office hours. You **must** use your UWO account in order to write to the course email for security and privacy reasons.

NOTE: In the subject line, please include [3305] and include a title or topic description of the contents of the email in the subject line and send e-mails from your @uwo.ca e-mail account. The instructor will be unable to respond to questions about your personal grades, assignment, etc. if they are not sent via a known @uwo.ca e-mail account for security and privacy reasons.

For example, please ensure your e-mails look like this:

From: Student Name <sname123@uwo.ca>
Subject: [3305] Assignment 3: Question about threads

and not like this:

From: Crazy ALIAS name <super+crazy_email@weirddomain.tv>
Subject: RE: RE: FWD: re: Subject FW: Bunch O' Questions

Course Schedule

Lecture Times [REDACTED]

- Monday 4:30pm - 5:30pm
- Wednesday 4:30pm - 6:30pm

Consult the Course Map in OWL for a list of topics and important dates

Lectures

This course is in person as required by the University. Accompanying course slides will be provided prior to the lecture.

In the event that a lecture requires a delivery change to "asynchronous", the lecture will consist of videos and accompanying course slides.

Course Materials

Suggested Textbook

A. Silberschatz, P. Galvin, and G. Gagne Operating System Concepts (Tenth Edition), John Wiley & Sons. Inc, May 2018; ISBN: 978-1119456339

Lecture Notes

Lectures notes will be made available on OWL

Other material

Sample code demonstrating concepts may occasionally be made available on OWL

Course Web Page

Students should check OWL (<https://owl.uwo.ca>) on a regular basis for news and updates. OWL will be the primary method by which information will be disseminated to all students in the class. Students are responsible for checking the course site on OWL regular basis.

If students need assistance with the course OWL site, they can seek support on the [OWL Help page](#). Alternatively, they can contact the [Western Technology Services Helpdesk](#). They can be contacted by phone at 519-661-3800 or ext. 83800.

Online conduct

For any class content not delivered in person, the content may be recorded. The data captured during these recordings may include your image, voice recordings, chat logs and personal identifiers (name displayed on the screen). The recordings will be used for educational purposes related to this course, including evaluations. The recordings may be disclosed to other individuals participating in the course for their private or group study purposes. Please contact the instructor if you have any concerns related to session recordings.

If you are participating in a Zoom session, you should enable audio and video both at the beginning and the end of the session, but please leave your **audio muted** and **video turned off if you are not speaking**. Unnecessary audio/video uses up computing resources, bandwidth, distracts from the conversation.

For any online interaction related to this course (Zoom or otherwise), as one should with any online interaction, please conduct your self with maturity and responsibility.

Computing facilities

Each student will be given an account on the Computer Science Department senior undergraduate computing facility, GAUL. GAUL accounts are automatically created, normally within 24 hours, after enrollment and the username/password would be the same as your UWO email account. If a student is able to log into his/her UWO email, but is unable to log into the GAUL systems after 3 days of enrollment, please submit a ticket. with Science Technology Services at <https://helpdesk.sci.uwo.ca>. In accepting the GAUL account, a student agrees to abide by the computer science department's *Rules of Ethical Conduct*.

Access to GAUL is **REQUIRED** to complete this course. You are welcome to work on assignments on your own Unix/Linux environment if you wish but everything you submit must work on GAUL.

Time zone and Scheduling of Course Components

All times listed in this document and on the OWL course site are assumed to be in Eastern Time (the local time of the Western University campus) unless otherwise stated. Quizzes and exams will be scheduled for the Eastern Time Zone. Students must

ensure they are available during these times even if they are located outside of Ontario. No alternative deadlines, quiz dates/times, or exam dates/times will be offered for students outside of the Eastern Time Zone.

Student Evaluation

Element	Weight
5 Programming Assignments	30%
1 Midterm Exam	15%
10 (out of 12) Quizzes	10%
Final Exam	45%

To be eligible to obtain a 50% in the course, the combined midterm and final exam grade must be 40% or higher AND the weighted assignment average must be 40% or higher. There will be no exceptions or waiving of this requirement for any reason or circumstance.

To be eligible to obtain a 60% in the course, the combined midterm and final exam grade must be 50% or higher AND the weighted assignment average must be 50% or higher. There will be no exceptions or waiving of this requirement for any reason or circumstance.

General information about missed coursework

Students must familiarize themselves with the *University Policy on Academic Consideration – Undergraduate Students in First Entry Programs* posted on the Academic Calendar:

https://www.uwo.ca/univsec/pdf/academic_policies/appeals/academic_consideration_Sep24.pdf

This policy does not apply to requests for Academic Consideration submitted for **attempted or completed work**, whether online or in person.

The policy also does not apply to students experiencing longer-term impacts on their academic responsibilities. These students should consult [Accessible Education](#).

For procedures on how to submit Academic Consideration requests, please see the information posted on the Office of the Registrar's webpage:

https://registrar.uwo.ca/academics/academic_considerations/

All requests for Academic Consideration must be made within 48 hours after the assessment date or submission deadline.

Note: For course elements without flexibility, the policy permits students to request one absence without proof of documentation. However, since sufficient flexibility is built into all course elements, all academic consideration requests will require proof of documentation.

Assignments

Students are expected to view the lecture materials and complete the online exercises to prepare for the assignments. Once the assignment is completed, all parts of the assignment must be submitted on the OWL site. It is the **student's responsibility** to ensure that all parts of each assignment are correctly uploaded and submitted in OWL, to ensure that the assignment can be marked accordingly.

Note: Assignments emailed to the instructor or teaching assistant **will not** be accepted, unless there are extenuating circumstances and prior approval from the instructor.

The following is the tentative assignment schedule (subject to change):

Assignment	Weight	Due Date (by 11:55 PM)
1	6%	October 1st, 2024
2	6%	October 22nd, 2024
3	6%	November 5th, 2024
4	6%	November 19th, 2024
5	6%	December 3rd, 2024

The due dates of the assignments are shown in the table above. Please note that all these dates are tentative. The due dates will be confirmed when the assignments are posted on OWL. The dates will coincide with the class progression on subsequent topics.

If for any reason the assignment schedule given above cannot be adhered to, the assignment marks will be pro-rated. The five (5) assignments are worth 30% of the overall mark for the course. If an assignment must be cancelled for any reason, the remaining assignment weights will be prorated to add up to 30%.

Assignment Marking:

- Assignments will be marked by a TA within 2 weeks of the assignment due date where possible.
- Individual marks and a detailed marking scheme will be posted on the OWL site once marks are returned.
- Questions regarding the marking of assignments should first be directed to the teaching assistant that graded your assignment and then the course instructor assigned to your section if your discussion with the teaching assistant was not satisfactory.
- Requests for mark adjustments will only be considered if they are made within **1 week** of receiving the assignment mark and have been first discussed with the teaching assistant who marked the assignment. **Assignment marks will be final after that date.**
- Requests for mark adjustments will only be considered when they are for adjustments of **5 marks or greater**.

Late Policy for Assignments

It is expected that students budget enough time to properly submit their assignments via OWL and allow for any unforeseen technological issues. 11:55 PM is a **hard deadline** and no extensions or relief will be given for assignments that just miss this deadline or miss the deadline due to technical issues. Students are expected to regularly backup their assignments and submit well before any deadline.

- Assignments will be accepted only up to two (2) days late.
- Assignments submitted after 11:55 PM on the due date but before 11:55 PM on the day after the posted due date will be **deducted 10% of the total grade**.
- Assignments submitted after 11:55 PM on the day after the due date but before 11:55 PM on the next day will be **deducted 25% of the total grade**.
- Assignments submitted after 11:55 PM on the next day after the posted assignment due date will receive a grade of zero (0).
- Late assignments will have a penalty of **10% or 25% of the maximum mark** for the assignment deducted based on time of submission as listed in OWL. Thus, if a student would have received 90% on an assignment based on 100%, then if it was submitted three hours late the student would receive 80%, if it was submitted twenty hours late the student would receive 65%.

Exceptions to the deadline and late policy

Life happens and sometimes it will not be possible to submit your assignment on time. If events cause you to require flexibility, you can take advantage of one of the following options:

- **Academic counselling**

- https://www.uwo.ca/sci/counselling/procedures/academic_consideration_for_absences/academic_considerations.html (or academic advising appropriate for your program)
- If there are circumstances beyond your control that precludes you from submitting on time, connect with an academic advisor who can recommend an extension on your behalf. Documentation will likely be required for the academic advisor. Documentation should not be sent to the instructor.
- Then connect with the instructor to decide an appropriate deadline given your circumstances. If it is not possible to determine an appropriate deadline, the weight of the assignment will be placed on the remaining assignments.
- This can be applied proactively or retroactively but only if recommended by the academic advisor

- **One late penalty automatically reversed**

- Each assignment is worth 6% of your overall grade. A -25% late penalty on 6% is -1.5% of your overall grade. Therefore, each student will automatically receive the equivalent of +1.5% to their overall grade. In other words, **all students will receive +1.5% on their overall grade for free.**
- In practice, this means

	Deductions from overall grade	One late penalty automatically reversed	Effective change to overall grade
All assignments on time	0.0%	+1.5%	+1.5%
One assignment submitted two days late	-1.5%	+1.5%	0.0%
One assignment submitted one day late	-0.6%	+1.5%	+0.9%
Two assignments two days late	-3.0%	+1.5%	-1.5%
...	...	...	...

- Note:

- The late penalty will still be applied to the assignment. The +1.5% is added to your final grade, not the assignment.
- The final grade is still capped at 100%
- This is applied automatically and input from the student is not required.

Quizzes

- There will be 12 equal weight quizzes (1 per week - excluding the first week when there is no class and reading week)
- Quizzes begin the first week of classes (second week of the term)
- Quizzes will be posted weekly on the course website beginning Thursdays at midnight and closing Sundays at 11:55pm.
- Quizzes can be reasonably completed in about 15 minutes at most.
- To be eligible for full marks, you must participate and complete at least 10 out of 12 quizzes, however participating and completing all 12 quizzes is recommended.
- Quizzes are intended to be a low stress activity to encourage students to regularly review the material that has just been taught and help the student gauge their understanding of the material.
- **Quizzes are open book but must be done individually** and without the assistance of others. Sharing quiz questions/solutions, completing a quiz for or with another person or otherwise cheating on a quiz will result in a 0% quiz grade for ALL quizzes.
- **There are no makeup quizzes.** If a student has an approved absence from an academic counsellor, the weight of the missed quiz will be placed on the remaining quizzes
- In the unlikely event that a quiz must be cancelled for everybody, the weight of the cancelled quiz will be placed on the remaining quizzes

Midterm and Final Exam

Midterm exam

The midterm exam will be tentatively held **Wednesday, October 30** (during class time) and will cover all course material up to the end of the previous week including assigned readings, tutorials, lecture slides, and materials covered in assignments.

There is no makeup midterm. If a student has an approved absence from an academic advisor, the weight of the missed midterm will be placed on the final exam.

Final exam

The final exam will be conducted in person and cover all course material not covered on the midterm including assigned readings, tutorials, lecture slides, and materials covered in assignments. The final exam will be scheduled during Finals Period at Western or, if not applicable, at a suitable date and time after the course completes.

Exam protocol

Exams are to be completed individually, with no assistance or contact with others. Violation of this rule, any other exam rule, or cheating of any kind will result in a 0% grade for the final exam and the possibility of additional penalties as deemed appropriate by the course instructor, department or university including but not limited to a failing grade being entered for the course.

Absences from Final Examinations

If you miss the Final Exam, please contact the Academic Counselling office of your Faculty of Registration as soon as you are able to do so. They will assess your eligibility to write the Special Examination (the name given by the University to a makeup Final Exam).

You may also be eligible to write the Special Exam if you are in a "Multiple Exam Situation" (e.g., more than 2 exams in 23-hour period, more than 3 exams in a 47-hour period).

Special Examinations

If a student fails to write a scheduled Special Examination, the date of the next Special Examination (if granted) normally will be the scheduled date for the final exam the next time this course is offered. The maximum course load for that term will be reduced by the credit of the course(s) for which the final examination has been deferred. See Academic Calendar for details (under [Special Examinations](#)).

Additional Statements

Religious Accommodation

When conflicts with a religious holiday that requires an absence from the University or prohibits certain activities, students should request an accommodation for their absence in writing to the course instructor and/or the Academic Advising office of their Faculty of Registration. This notice should be made as early as possible but not later than two weeks prior to the writing or the examination (or one week prior to the writing of the test).

Please visit the Diversity Calendars posted on our university's EDID website for the recognized religious holidays:

<https://www.edi.uwo.ca>.

Accommodation Policies

Students with disabilities are encouraged to contact Accessible Education, which provides recommendations for accommodation based on medical documentation or psychological and cognitive testing. The policy on Academic Accommodation for Students with Disabilities can be found at:

https://www.uwo.ca/univsec/pdf/academic_policies/appeals/Academic%20Accommodation_disabilities.pdf

Academic Policies

The website for Registrar Services is <https://www.registrar.uwo.ca/>.

In accordance with policy,

https://www.uwo.ca/univsec/pdf/policies_procedures/section1/mapp113.pdf

the centrally administered e-mail account provided to students will be considered the individual's official university e-mail address. It is the responsibility of the account holder to ensure that e-mail received from the University at their official university address is attended to in a timely manner.

Only a simple, non-programmable calculator is permitted for all examinations.

Support Services

Please visit the Science & Basic Medical Sciences Academic Counselling webpage for information on add/drop courses, academic considerations for absences, appeals, exam conflicts, and many other academic related matters:

<https://www.uwo.ca/sci/counselling/>

Students who are in emotional/mental distress should refer to Mental Health@Western (<https://uwo.ca/health>) for a complete list of options about how to obtain help.

Western is committed to reducing incidents of gender-based and sexual violence and providing compassionate support to anyone who has gone through these traumatic events. If you have experienced sexual or gender-based violence (either recently or in the past), you will find information about support services for survivors, including emergency contacts at

https://www.uwo.ca/health/student_support/survivor_support/get-help.html

To connect with a case manager or set up an appointment, please contact support@uwo.ca.

Please contact the course instructor if you require lecture or printed material in an alternate format or if any other arrangements can make this course more accessible to you. You may also wish to contact Accessible Education at

http://academicsupport.uwo.ca/accessible_education/index.html if you have any questions regarding accommodations

Learning-skills counsellors at the Student Development Centre (<https://learning.uwo.ca>) are ready to help you improve your learning skills. They offer presentations on strategies for improving time management, multiple-choice exam preparation/writing, textbook reading, and more. Individual support is offered throughout the Fall/Winter terms in the drop-in Learning Help Centre, and year-round through individual counselling.

Western University is committed to a thriving campus as we deliver our courses in the mixed model of both virtual and face-to-face formats. We encourage you to check out the Digital Student Experience website to manage your academics and well-being:

<https://www.uwo.ca/se/digital/>.

Additional student-run support services are offered by the USC, <http://westernusc.ca/services>.

Ethical Conduct

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Web site:

http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf.

Plagiarism

All required assignments, quizzes and exams may be subject to submission for textual and metadata similarity review to plagiarism detection software. All assignments, quizzes and exams submitted for such checking may be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of such services are subject to the licensing agreement with The University of Western Ontario. These services and software may include but are not limited to Turnitin (<http://www.turnitin.com>), MOSS, SCANEX, and custom plagiarism detection software developed for the course.

Computer-marked multiple-choice quizzes and exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

Students must write their assignments in their own words. Whenever students take an idea, or a passage from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. Plagiarism is a major academic offence (see Scholastic Offence Policy in the Western Academic Calendar).

All **assignments** are individual assignments. You may discuss approaches to problems among yourselves; however, the actual details of the work (assignment coding, answers to concept questions, etc.) must be an individual effort. All assignments will be subject to both content and metadata plagiarism analysis.

All **quizzes** and **exams** are to be written individually, the content and questions not shared and provided rules followed.

Tutors and Outside 'Help' on assignments

Students may receive the help of a tutor on assignments, so long as the tutor only identifies errors or demonstrates sample problems that are **not** part of the assignment. If the content of your assignment is significantly different than if you had not

received help, then this is an indication you may have crossed the line into cheating. Again, if you are unsure about how much help is too much, ask your instructor.

The role of tutoring is to help students understand course material. Tutors should not write any part or all of an assignment for the students who hire them. Tutors should not 'advise' or 'suggest' what is to be entered into an assignment or the solutions to any portion of the assignments. Any aid beyond what you would have received directly from the instructor will be considered an academic offense. Having employed the same tutor as another student is not a legitimate defense against an accusation of collusion, should two students hand in assignments judged similar beyond the possibility of coincidence.

Academic dishonesty

Evidence of purposeful or accidental academic dishonesty will result in an **academic offence** for **both** students.

For **assignments**, this includes (but is not limited to):

- Sharing assignments either in person or through online channels. This includes
 - Using another student's assignment or work as a "template" or "starting point" for your own work
 - Using sites dedicated to sharing assignment solutions or aiding cheating, including but not limited to Course Hero, OneClass, and Chegg
- Using code from an external source (textbook, instructor, course website, Stack Overflow, LLM services) where a student's own code is expected. If in doubt, ask your instructor.
- Completing an assignment for or with another person. This includes any unacceptable collaboration.
 - There is a difference between discussing assignments and solutions with fellow students and working together on the solutions to the point where the work submitted is clearly not individual work. **If in doubt, ask your instructor.**
- Any other activity that could be reasonably considered cheating off another student
- Any other activity that could be reasonably considered helping another student cheat off you (accidentally or on purpose)

For **quizzes**, this includes (but is not limited to):

- Sharing quiz questions or solutions either in person or through online channels
- Completing a quiz for or with another person
- Any other activity that could be reasonably considered cheating off another student
- Any other activity that could be reasonably considered helping another student cheat off you (accidentally or on purpose)

The penalty for academic dishonesty in any course component is receiving 0% for that component **AND** the possibility of additional penalties as deemed appropriate by the course instructor, department or university including but not limited to an additional penalty equal to the course component, or a failing overall grade being entered for the course. Note that receiving 0% on an assignment may make you ineligible for a passing grade due to the 40% requirement given in the Student Evaluation section. Receiving 0% on the final exam, will make you ineligible for a passing grade in this course.

You are responsible for reading and respecting the Computer Science Department's policy on:

Scholastic Offences:

https://www.csd.uwo.ca/undergraduate/current/policies/scholastic_offenses.html

and Rules of Ethical Conduct:

https://www.csd.uwo.ca/undergraduate/current/policies/ethical_conduct.html
