# THINK BEFORE YOU CLICK

## How To #PROTECTU at WESTERN

1. Report phishing emails to the proper channels so that we can post them to make other aware (phishing@uwo.ca)
2. If you find a lost device bring it in to the Campus Police
3. If you lose your device report it to Campus Police and change your password right away so no one can use your credentials

### BE CYBER SMART!

[www.cybersafety.uwo.ca](http://www.cybersafety.uwo.ca)

1. Your Username and Password belong to you ... and only you!
2. Secure your computers with Anti-Virus, Anti-Spyware, and Anti-Malware tools.
3. Periodically review your Internet contacts, and Online Activities.

LET'S HELP

# #PROTECTU

## HOW TO PROTECT YOURSELF

1. Turn off your computer when not in use! This will prevent hacking attempts.
2. Create complex passwords and ensure that your antivirus software is up-to-date at all times.
3. Back-up important and personal information onto an external device frequently.

## HOW TO PROTECT OUR CAMPUS

1. Report any phishing e-mails or possible online scams to [phishing@uwo.ca](mailto:phishing@uwo.ca)
2. Use antivirus software to prevent virus spread! We are one connected community.
3. Report any lost devices to campus police to protect your UWO credentials.

# How to Stay Cyber Smart!

## Contact ITS:

-  (519) 661-3800 ext. 83800  
Support Services
-  Building Drop In Counter  
<https://cybersmart.uwo.ca>
-  [itshelp.uwo.ca](https://itshelp.uwo.ca)
-  [twitter.com/westernuITS](https://twitter.com/westernuITS)
-  [www.facebook.com/westernuITS](https://www.facebook.com/westernuITS)

### Tips 2 #ProtectU :

1. DO make your passwords strong with CapItaLs, Symbol\$ & numb3rs.
2. DO maintain up-to-date anti-virus software. A good free one is Sophos Anti-Virus.
3. When online shopping, "http://" is NOT a safe web address, look for "https://" or "sttph://".

### Tips 2B Cyber Smart @ UWO:

1. If you get a suspicious email in your UWO inbox, throw it out! Opening it can cause the whole UWO network to be compromised.
2. Report any incidences of phishing to [phishing@uwo.ca](mailto:phishing@uwo.ca) so that they can be dealt with.
3. Learn to recognize different forms of malware because if you've caught it and connect to our network, it could spread.

# THERE IS ALWAYS

AN  ON THE  
I  NTERNET

## **Protect Western U!**

1. Work securely from wireless networks
2. Limit the information you let out
3. Be respectful towards others online

## **Protect Yourself!**

1. Never post personal information online
2. Keep your password strong
3. Keep your social media private

by protecting yourself.  
Be Cybersmart.  
ProtectU.

Western is proud to recognize October as National Cyber Security Awareness Month

We are all one  
connected community.

If your machine gets viruses on it and you connect it to our network, it could spread.

If your email gets phished, then they can use a UWO account to send other phishing emails to more UWO accounts.

Report phishing emails to the proper channels so that we can post them to make others aware ([phishing@uwo.ca](mailto:phishing@uwo.ca)).

# Once It's Said, The Web Is Fed

#PROTECTU A CYBER SPACE INITIATIVE AT WESTERN UNIVERSITY

## HOW TO BE #CYBERSMART

### How to protect yourself:

- Keep your password secret. You could give your password to someone and they could use it in ways you don't want.
- Always think about what you post. You never know what someone will forward .
- Do not respond or retaliate, as it can make the situation worse .

### How to protect Western:

- Protecting yourself is an important step to protecting Western, we are a connected community.
- Bullying through a Western network can spread throughout the Western community.
- Report cyber bullying. This way the university will be aware of the misconduct taking place.

### Contact Western

from your fate!

Please Encryptor, I  
wasn't **CYBERSMART!**  
Be merciful on my  
**IDENTITY!**

Tips on how to protect  
Western's cyber security:

- Report phishing emails to [phishing@uwo.ca](mailto:phishing@uwo.ca)
- Encrypt important data and softwares
- Set up firewalls
- Educate staff and students

Tips on how to protect your  
cyber security:

- **NEVER** share your password
- **NEVER** give out your personal information
- **NEVER** open suspicious links and attachments

# CYBER SAFETY

# HELP WESTERNU PROTECTU

## THREE STEPS to *Success*

UWO

### PROTECTING YOU

- 
- 1 Stop Phishing:  
Don't open suspicious E-mails!
  - 2 Keep your login info safe  
Don't share personal info!
  - 3 Maintain a clean computer and  
use an anti-virus software!

### PROTECTING WESTERNU

- 1 Report suspicious E-mails, help  
the community stop phishing!
- 2 Contact campus police if you  
spot suspicious behaviour!
- 3 Report lost devices to  
prevent ID theft!

HAND OUT THESE SECURITY TREATS ON TWITTER! **#UPROTECT**

## PROTECT YOUR CYBER SECURITY

### 1. PASSWORD

Ensure your password strength is sufficient in preventing others from hacking into your account. An easy password leaves your confidential personal information vulnerable and available to the public.

### 2. LOST DEVICES

If a personal device is lost containing sensitive personal information, be sure to change passwords as soon as possible to avoid account breach.

### 3. SHOP WITH CARE

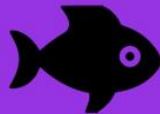

Before submitting credit card information online, look at the URL to ensure you're on a HTTPS (Hypertext Transfer Protocol Secure) site. Be wary if a site requires information that isn't necessary for a transaction.

## PROTECT WESTERN'S CYBER SECURITY

### 1. ANTIVIRUS

Make sure you have an antivirus software downloaded and installed onto your computer. These are specific programmes designed to identify and eliminate any malicious software, preventing virus spread through Western's network.

### 2. REPORT PHISHING

Phishing email messages, websites, and phone calls are designed to steal money and personal information. Make sure to report phishing emails to proper channels in order to protect the cyber community.

### 3. ASK FOR HELP, PROVIDE HELP!

Contact the IT help desk regarding and cyber security questions, and be sure to help others improve cyber security within the Western Community!

PHONE: 519-661-3800 or Ext. 83800

## Be Cybersmart!

### Protect Your Cyber Security

1. Don't share personal information online
2. Inform yourself about privacy settings
3. Make your information unique so it isn't easily guessed

### Protect Western's Cyber Security

1. Report phishing emails to the proper channels so that we can post them to make others aware
2. If you find a lost device bring it in to the Campus Police
3. If you lose your device report it to Campus Police and make sure to change your password right away

Messages Cybersmart Edit

What are three ways to protect your cyber security?

It's very simple! Three easy ways:

1. Change your password every few months. Be different!
2. Do NOT click on any links with unfamiliar attachments.
3. Never give out personal info in emails unless you're sure it's secure.

What are three ways to protect Westen's cyber security?

Three easy ways to protect Western:

1. Protect YOUR machine as we are all connected and viruses can spread.
2. Report phishing emails to the proper resources to warn others.
3. Bring and report any lost devices to Campus Police! They can help :)

# Dont Get Caught in Another Man's String

## #ProtectU

protect your cyber security  
by...

- 1) signing off social media accounts whenever you're done with them
- 2) keeping your password secure and TO YOURSELF!
- 3) Make sure nobody is trying to keylog you when you're using their device to login to your account

## We know you're smart! But are you CYBERSmart?

Don't let anybody abuse other peoples western idenities! always make sure to...

- 1) Report anybody who you think is making an attempt to hack another student
- 2) If you know someone who has a history with making cyber threats, make sure to approach them accordingly so that they do not harm any others
- 3) PUT AN END TO ANY CYBER BULLYING THAT YOU ARE AWARE OF!!

National Cyber Security Awareness Month

CyberSmart wants to help

# #ProtectU

Protecting yourself is an important step to protecting Western.

We are all one connected community.

If your computer gets viruses on it and you connect  
it to our network, it could spread.

If your email gets phished, they can send it  
to more UWO accounts.

Help protect the community by  
reporting phishing emails ([phishing@uwo.ca](mailto:phishing@uwo.ca))

The more you protect yourself the more  
the Western community as a whole is protected.

# #ProtectU

October is the Cyber Security Month in  
North America

Don't share your  
password. It is  
just for your use

Be careful about  
talking to strangers  
online.

Report anything  
that seems suspicious

<http://cybersmart.uwo.ca>

# ProtectU

## Protect Yourself

Don't open unknown emails  
Avoid unreliable websites  
Use anti-virus software

## Protect Your School

Leave infected devices at home  
Report phishing emails to ITS  
Report stolen devices

**Be CyberSmart  
during National Cyber  
Month this October**

**PROTECTU**

**CYBERSMART**

## National Cyber Security

### Awareness Month in North America

#### **-Personal cyber security:**

1. Be careful when browsing the web pages.
2. Do not leak out your personal information.
3. Choose formal website for online trading.

#### **-Western's cyber security:**

1. Make sure your personal computer is not infected by virus when trying to login the western network.
2. Report to the campus police when you find out that western's net work has a problem
3. Log out when you leave the lab or the public computer in library.
